NGUYEN TUAN DAT

Business Analyst Intern

Ngày sinh: 04/01/2004
Giới tính: Nam
Số điện thoại: 0978500955
Portfolio: ondynguyen411.github.io/portfolio-nguyen-tuan-dat/
Email: tuandatnguyen411@gmail.com
Địa chỉ: Thu Duc, TP.HCM

INTRODUCTION

Final-year Management Information Systems student with a strong foundation in digital transformation and AI-integrated products. Proven ability to analyze business requirements, author comprehensive system documentation (SRS, User Stories, Use Cases), and manage product logic. Experienced in bridging the communication gap between technical teams, product owners, and stakeholders to ensure seamless project execution and UAT delivery.

EDUCATION

2022 - 2026

University of Banking Ho Chi Minh City

Major: Management Information Systems

Achievements

- Awarded excellent scholarships for 2 consecutive semesters in 2024-2025.
- Award: “Startup Idea for Social Impact” – HUB Startup Season VI.
- Top 50 students receiving "Trẻ Concert" scholarships.

RELEVANT PROJECT EXPERIENCE

02/2025 - 03/2025

BUSINESS ANALYSIS FOR HOTEL MANAGEMENT SYSTEM - BA COURSE PROJECT

Project Leader

Link: https://drive.google.com/file/d/1mL42IOvZNdUcX1K0LcQaRhjdICVIfYBT/view?usp=sharing

- Analyzed functional requirements for core modules. Defined non-functional requirements regarding system security and performance.
- Designed UML Diagrams to visualize the end-to-end workflows, ensuring logical consistency.
- Authored the SRS document, detailing the system scope, user actor and feature descriptions.
- Created Wireframes for the main dashboard to visualize the user interface and validate user experience flows.

Achivement: Delivered a comprehensive Business Analysis Report that established clear system boundaries, defined actionable development phases, and ensured full requirement traceability for technical implementation.

08/2025 - 12/2025

PROJECT "BEP VIET" E-COMMERCE WEBSITE - GRADUATION PROJECT

Project Leader

Link: *https://drive.google.com/file/d/1YAA-RHxyR7SBLkLpq6LvtHsPo-DyL2T7/view*

- Engaged in the full SDLC, from gathering user requirements to designing the Entity-Relationship Diagram for the database.
- Defined the Use Case for AI integration, specifying how the Google Gemini API should analyze inventory data to generate recipe recommendations.
- Collaborated with the technical team to verify that the AI outputs met the business logic regarding ingredient availability.

Achievement: Received a 9.0/10 score for the logical complexity of the system and the successful application of Generative AI in a business context.

02/2026 - 02/2026

LINKEDIN JOB TRACKING AUTOMATION SYSTEM

Product Creator

Link: https://docs.google.com/spreadsheets/d/1IncduLPN1g9SpEfKXmnN7eEEIF_bbXOcz-FJFDjYaCo/edit?usp=sharing

- Identified critical inefficiencies in the job search process and defined the product requirements for an automated tracking system.
- Built and deployed a complete automation workflow using n8n. Configured Webhooks via Google Sheets to trigger deep-fetch API calls to LinkedIn.
- Wrote custom JavaScript to clean HTML data, filter out irrelevant keywords, and accurately calculate "hours ago" to bypass native sorting flaws.

Achievement: Delivered a fully automated pipeline that successfully extracts, cleans, and logs high-priority job postings directly into a centralized database, eliminating 100% of manual data entry.

08/2024 - 07/2025

BACH KHOA MENTORING WEBSITE

QA Team Member / Business Analyst Support

- Collaborated with the QA Lead to execute Test Scripts across 12 testing rounds.
- Acted as a bridge between the Operations team and the Technical team to clarify requirements regarding RBAC, ensuring the final release met business security needs.
- Analyzed user drop-off points during the "Report Submission" phase, proposing UI improvements that streamlined the user journey.

Achievement: I successfully standardized the requirement documentation process, enabling the dev team to build features that support over 130 mentor-mentee pairs with zero logic errors during UAT.

ACTIVITY

11/2024 - Present

HUB ALUMNI MENTORING COMMUNITY

Tracking Team Leader

- Analyzed the existing manual data collection process and identified bottlenecks in the reporting workflow.
- Proposed and implemented a new Standard Operating Procedure for data management, utilizing Excel automation to replace manual entry.

Achievement: I optimized the monthly reporting cycle, reducing processing time by 70% and ensuring 100% data accuracy for stakeholder updates.

SKILLS

Business Analysis Tools	Proficient in drawing Flowcharts, Use Case Diagrams, and Activity Diagrams using Draw.io. Experienced in writing User Stories and User Guides. Basic knowledge of UI/UX principles and wireframing.
Technical & AI	Intermediate knowledge of SQL for data querying and verifying logic. Demonstrated knowledge of Generative AI through practical projects. Capable of supporting UAT and verifying requirements against implementation.
Languages	Vietnamese**:** Native speaker. English**:** I am proficient in reading technical documentation and conducting research to support project requirements.

CHỨNG CHỈ

2025	EF SET English Certificate 69/100 (C1 Advanced)
2026	Business Analysis Foundations Certificate
2026	Postman API Fundamentals Student Expert
