OP SHIFT — Automated Shift Reminder Tool

1. CURRENT STATE

Manual Workflows Are Consuming Too Many Resources

1. Livestream Production: Scheduling & notifications are fully manual

There is no automated tool to support the process from data intake through to notifying staff.

2. Livestream Production: Time is spent cross-checking and copying data

Employees spend hours verifying information and copying data between spreadsheets — making it easy to assign the wrong shift or room.

3. OP/Host: Staff must search and filter names themselves

The broadcast assistant has to manually look up information and take notes — which can easily lead to late shifts due to the lack of proactive reminders.

Biggest
issue

Missing/arriving late livestream negatively impacts performance and brand satisfaction.

2. SOLUTION

OP SHIFT — Automated Shift Reminder System

The system automates the entire data flow — from the source file to each team member's personal schedule and inbox, with no manual intervention required.

The Three Operational Pillars

Data Import & Standardization

Automatically extract from source files, clean it, and structure the data for ready-to-process output.

Sync Google Calendar

Split shift schedules into separate events and push them directly to each employee's calendar.

Email Notification

Automatically send detailed shift notification emails — including room, time, and broadcast link.

[LIVESTREAM] Thông báo Lịch trực OP (2026-06-06 đến 2026-06-10) Production

vn.production@intrepid.asia
to: tuandatnguyen4111

[THÔNG BÁO] TỔNG HỢP LỊCH TRỰC LIVESTREAM

Chi tiết các ca trực được phân công trong thời gian tới:

2026-06-06:
14:00 - 18:00: MAC - Tiktokshop - Room 7

2026-06-07:
19:00 - 23:00: MAC - Tiktokshop - Room 7

2026-06-08:
10:00 - 13:00: Bobbi Brown - Tiktokshop - Room 6
14:00 - 16:00: Estee Lauder - Tiktokshop - Room 5

2026-06-09:
12:00 - 16:00: Estee Lauder - Tiktokshop - Room 5

* Xem trực quan lịch làm việc trên hệ thống: [Tải đây](#)

* Ứng dụng sẽ tự động gửi thông báo nhắc nhở 30 phút trước mỗi ca trực.

2. SOLUTION

Background Run — Automatically Triggers at the Right Time

The system automatically executes all three operational pillars simultaneously based on predefined triggers.

 8:00 PM every day

Update and send on-call schedules for the next day

 8:00 PM Saturday

Update and send on-call schedules for the entire new week

Zero Human Intervention Required

The entire workflow operates fully in the background. No manual activation, daily oversight, or monitoring is needed

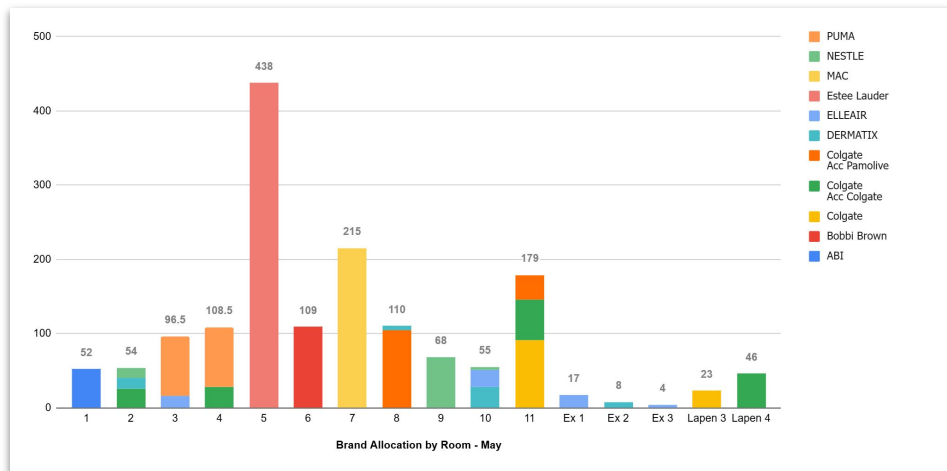

DEMO

4. DEVELOPMENT ROADMAP

Phase 1: Analytics Dashboard

Build reporting dashboard using cleaned data

- Room fill rate
- Individual performance
- Total on-air hours

Phase 2: Scale to Host Livestream TEAM

Expand scheduling system to presenter department

- Coordinate presenter schedules
- Extend across departments
- Unified scheduling platform
